Front View

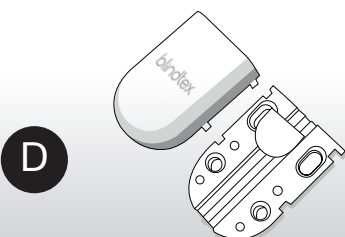

Cassette System 32®

Cassette system, allows quick and easy mounting in either top fix or face position. Our patented design allows for reverse rolling and covering with matching or contrasting fabric.

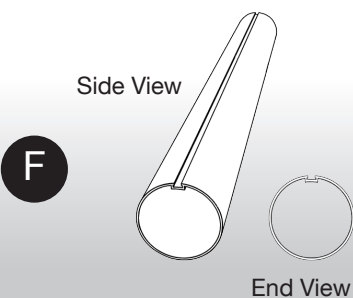

Cassette Mounting Brackets®

Mounting brackets allow for near invisible fixing of the cassette. Top or face fix using the same bracket. Once fitted the cassette simply snaps into position.

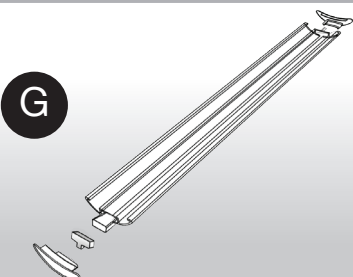

Chain with Child Safety

Available in nickel plated brass or plastic. The pitch of the operating chain is designed to provide a smooth operation.

32mm Tube

The design allows for full integration of the selected fabric and also provides maximum resistance to tube deflection.

Bottom Bar & Bottom Bar End Caps

Whistle aluminum bottom bar with push fit nylon end caps.

Measuring

Blind size: will be width of the cassette by top of bracket to bottom of bottom bar (in closed position).

Recess size: will be - 10mm from both width & drop.
Tolerances: 3mm on width and drop.

Cassette Options

Feel free to mix and match the colour of your choice for the cassette from the list below, at no additional charge. Or for a surcharge use any of our roller or Sheer horizon.

If matching fabric is selected we will need to sew 3 panels together as the panel height is less then the cassette height, the result will be 2 stitch lines across the width of the cassette.

Code	Product	Design	Colour	Co-ordinated Pelmet Fabric
31700	Sheer Horizon	Sheer View	Mulberry	Eva Wine
31701	Sheer Horizon	Sheer View	White	Gabrielle Foam
